Sponsor information

Outward Bound partners with community organisations to facilitate and fund people to participate in their life changing courses who would not be able to attend otherwise. In 2017 Outward Bound entered a partnership with New Horizons for Women Trust: Hine Kahukura to jointly sponsor women to attend their courses each year. One place is for a younger woman to participate in a Classic 21-day course and the other is for an older woman to attend the week long Discovery course.

In 2021, an Activate course is also offered for a woman with a physical disability. Additionally, a co-sponsorship agreement between PSA, Outward Bound New Horizons for Women Trust: Hine Kahukura has led to the PSA Outward Award offered for the first time in 2021. The sponsorship for all 4 awards covers the course cost, travel to and from the course and a medical examination prior to the course. Appropriate clothing and equipment to undertake the course is the responsibility and at the expense of the awardee. For more information go to <https://www.outwardbound.co.nz/>.

Outward Bound courses are designed to be mentally, emotionally and physically challenging with long days and a good night's sleep not guaranteed. Activities occur in all weather conditions and can include off-track tramping, camping (sometimes alone), kayaking, running, sailing, swimming, rock climbing and high-ropes.
- Although Outward Bound has procedures in place to minimize risk, none of these risks can be completely eliminated. When undertaking any activity, you will be briefed on the risks and how to manage them. There is a chance you could get a cold, stomach illness, blisters, sunburn, exhaustion, wasp stings, infected cuts or insect bites, sprains, or some other injury, and may be asked to sit out certain activities.
- There have been no major life changing injuries at Outward Bound in over 10 years, however serious risks can never be completely eliminated. These include injury from falling, drowning, burns, hypothermia, heat stress or road accidents. To reduce the likelihood of a serious accident, we have a robust externally audited safety management system, which includes trained staff, up-to-date weather forecasts, robust communication protocols, modern equipment, and emergency procedures.
